Articles as diverse these have to be Blind Peer Reviewed by experts, which has been really difficult task for the editors. Many articles have to be refused on the basis of Peer Review and Plagiarism Similarity Reports. We feel sorry for those articles. It feels a profound gratification after selecting and many stages of proof-corrections, *Journal of Cultural Research Studies (ISSN:2583-6137)* has been finally published. It is expected that these articles will seriously contribute towards social and humanities research.
